# Greenstar 1000

## Budget never looked this good

Focus on the price tag and you could mistake the new Greenstar 1000 for any budget boiler, but this isn't your average entry-level option. 100% Worcester Bosch quality on the inside, beautiful design on the outside, and easy to install in smaller homes – the new Greenstar 1000 is everything you'd expect of a Worcester Bosch boiler. Everything except the price.

For customers where price is their number one consideration, you can now offer them the reassurance of the number one boiler brand. With our ultimate budget option, everybody can warm to a Worcester Bosch boiler.

## The ultimate budget boiler

The Greenstar 1000 has been designed with installers in mind. We've considered lift weight, cupboard fit size and the overall installation and servicing experience.

And after installing our brand new boiler across the UK, here's what installers have to say...

**So simple to install, great PRV and condensate location.**

Stephen Curtis @ Cosy Heat Glasgow  
East and West Scotland

**A pleasure to fit, installed in a cupboard and an easy one person lift.**

Andy Norton @ Norton's Heating  
Yorkshire

**Really well thought out boiler, perfect for the landlord market.**

Gary Campbell @ Thames Flame  
Middlesex

**It's the best budget boiler out there.**

Scott @ S Wakefield Plumbing & Heating  
West Midlands

### Why install the Greenstar 1000?

**Guaranteed**  
5 years peace of mind\*

**Cupboard-fit**  
Fits in a standard cupboard

**Lightweight**  
One person lift, at only 26kg

**Easy PRV installation**  
Installer-friendly location

**Rear piping option**  
Flexibility for all installations

**Service accessibility**  
Easy access to components

# Quality, beauty, and economy all-in-one

## Lightweight and compact design

At only 26kg, the Greenstar 1000 is an easy one-person lift. Its weight and compact design make it a great choice for kitchen cupboard installs.

## Easy access components

The one-box design provides front-panel access to all key components, including the primary heat exchanger, for easy installation and servicing.

**The whole team at Worcester Bosch is really proud of the Greenstar 1000. It's a great product at a great price.**  
Olly Gwilliam, Worcester Bosch Product Manager

## Installer-friendly connections

All hydraulic connections are in-line and 35mm from the rear of the appliance. A gas pipe tail is also provided to centralise the connection and the PRV is perfectly located for installer access.

## Condensate trap

The condensate trap comes with a simple push fit connection and is easily removable. External termination of condensate is flexible and possible up to 3m (insulated pipe).

## Vertical pre-piping assembly kit

The vertical pre-piping assembly kit comes pre-bent, with swaged ends for easy soldering, making installations up to 30 minutes faster. This kit is designed to fit perfectly with our rear spacer frame accessory.

## Rear spacer frame accessory

The rear spacer frame accessory allows wall mounting with 35mm space behind the boiler for vertical piping, for quicker and neater installations.
