

Greenskies Solar Lifestyle

Homeowner guide

Solar-powered comfort

Our Greenskies Solar Lifestyle panels absorb natural energy from the sun and use it to heat the hot water in your taps and showers – helping you keep your energy use and bills low.

Why choose the Greenskies Solar Lifestyle?

Flexible

Combine with your boiler** or heat pump for year-round hot water

Reliable

10 years peace of mind with our decade-long guarantee*

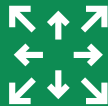

Durable

Enjoy up to 20 years of use

Powerful

Generate up to 90% of your hot water† in summer with renewable energy

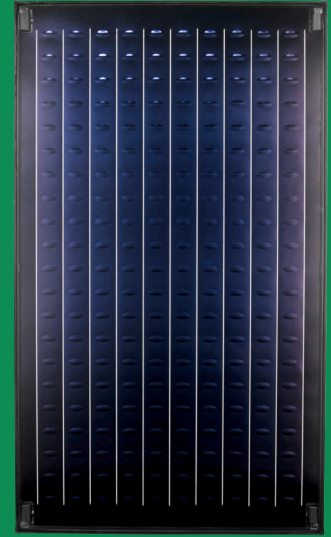

Versatile

A compact and lightweight option suitable for many homes

Responsible

Carbon savings equivalent to planting 15 trees each year^

Boost your home's EPC rating

Our panels can help boost your home's EPC rating by up to 6 points^^. This means solar thermal can possibly increase your property value^^.

Technology	Roof area needed	Increase in EPC rating
Solar Thermal (gas heating)	4m ²	+3^^
Solar Thermal (electric heating)	4m ²	+6^^

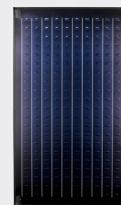

Scan to find out your current EPC rating.

Configure your system

Our solar thermal panels are designed to work alongside your existing boiler** or heat pump for year-round hot water.

Solar system with boiler**: Solar panels / boiler** / twin coil cylinder

Solar system with heat pump: Solar panels / heat pump / twin coil cylinder

All under control

Take control of your home heating with the TDS100-2 control - compatible with our solar panels and your current heating system.
