## **Multi-split System: Combination table**

Look for the combination of indoor units you would like and find which outdoor unit you need.

**Example:** If you want to install 3 indoor units with outputs 2kW, 2.6 kW and 3.5 kW, your combination is 2 + 2.6 + 3.5. In the table below, your correct combination is CL5000M 62/3 E.

You can choose CL5000M 62/3 E for exactly what your room requires, or you can choose to invest in CL5000M 82/4 E if you are planning to expand to another room in the future.
